1:25 000, 1:50 000, 1:100 000, also 1:30 000 A4 and 1:30 000 A3. Vicmap Digital

Vicmap Digital is the foundation that underlies most spatial information in Victoria. This set of spatially related data products, made up from individual datasets, is developed and managed by ISD. The information provides the foundation to Victoria's primary mapping and spatial information systems, and for building business information and systems.

All Vicmap Digital products can be overlayed to meet your mapping and information needs. The flexibility, quality and currency of Vicmap Digital make it the best digital mapping data available in Victoria.

NOTES TO THE MAP USER

Roads - Depiction of roads and tracks on this map does not necessarily indicate a right of way. For the most up to date walking track information in Parks and Reserves refer to the Parks Victoria website: www.parkweb.vic.gov.au Tracks depicted in waterbodies are only accessible when waterbody is dry. For more information on Iconic Four Wheel Drives refer to: www.fwdvictoria.org.au/iconic4wd.

Waterbodies - Waterbodies displayed on this map depict the outline of the lake or reservoir at full supply level and may therefore not accurately reflect current water levels.

Administrative Boundaries - The position of administrative boundaries shown on this map are only approximate. Nomenclature - Inclusion of a name on this map does not imply its approval by the relevant nomenclature authority.

Maritime Navigation - This map is not to be used for maritime navigation purposes.

Interstate Data - SA and/or NSW data, if displayed on this map, may not exist over the full extent of this mapsheet, and/or may not match Vicmap data.

This map has been automatically generated and may contain errors.

GEOCENTRIC DATUM OF AUSTRALIA

This map is produced on the Geocentric Datum of Australia (GDA). GDA supersedes the Australian Geodetic Datum 1966 (AGD). For all practical purposes GDA is the same as the World Geodetic System (WGS84).
